On Piergiorgio Donatelli's Book, La vita umana in prima persona

Abstract: In my paper I will discuss Piergiorgio Donatelli's book *La vita umana in prima persona*. Some problems, above all, are focused: i.e. in particular problems that involve liberty of human being, use of emerging technology, relationship between explanation and meaning of human life. From this point of view Donatelli's book can be understood as a serious attempt to define concrete frames in which human freedom can be performed.

Keywords: Ethics, Human life, Liberty, Technology.
