*Globalization without Modernity? The Case of Orthodox Christianity*

*Abstract:* In his book, *Globalization and Orthodox Christianity. The Transformations of a Religious Tradition*, Victor Roudometof doesn't simply present an examination of the bonds between Orthodox Christianity and globalization processes across history. His analysis is broader: using globalization instead of modernization as conceptual medium for analysing religion, Roudometof offer a deep contribution to the relationship between religion, modernity, and secularization.

*Keywords:* Orthodox christianity, Globalization, Modernity, Secularization.
