

# Per una società democratica della conoscenza

FABRIZIO RUFO

## *For a Democratic Society of Knowledge*

*Abstract:* Science and democracy are founded on the same values. In contemporary society, this common genesis relates with social organization founded on universal suffrage. One of the challenges of the modern knowledge society is the development of more appropriate forms of democratic participation to incorporate scientific innovation and technology through an expansion of citizenship rights.

*Keywords:* Science, Dewey, Democracy, Ethics, Citizenship.
