Bioethics in Pope Francis' Era

Abstract: With this article the author shows appreciation for the honest way in which Lo Sapia has presented the themes in his book. He shares the opinion that the Catholic Church's magisterium on bioethics is facing a turning point. The teaching hasn't changed but it is now applied considering carefully the concrete pastoral situation of each man and woman.

Keywords: Pope Francis, Catholic bioethics, Lay bioethics, Catholic teaching, Pastoral.
