

Sicurezza, libertà e populismo. Replica a critiche troppo amichevoli

MAURO BARBERIS

Security, Freedom and Populism. A Reply to too Friendly Criticisms

Abstract: For Cristina Barbieri: true, yet American exceptionalist answers to terrorism are also rooted in a constitutional and legal history very different from ours. For Giuseppe Campesi: true, nobody, no even me, has recipes for terrorist emergencies. I trust only in the institutional wisdom – no so much of Courts, but rather – of separation of powers. For Mario Ricciardi (and Cristina again, and Anna Pintore too): my book do'nt adopt freedom as the only constitutional relevant value, nor a freedom-based theory of justice. My book adopts a balancing approach, the more open to securitarian ends, and maybe the most suitable for public discussion under the conditions of populism.

Keywords: Security, Freedom, Populism.
