

Sicurezza, libertà e populismo penale

MARIO RICCIARDI

Security, Liberty, and Populism

Abstract: Mauro Barberis has given a compelling treatment of the ideological motivations behind the “securitarian turn” of criminal law after 11 september 2001. His arguments show that there is a new trend in thinking about “law and order” which has significant similarities with some aspects of contemporary populism.

Keywords: Security, Liberty, Neoliberalism, Populism, Terrorism.
