

I gradi della ragionevolezza nelle interazioni pubbliche

EMANUELA CEVA

A Scalar View of Reasonableness in Public Interactions

Abstract: This paper discusses John Rawls's contribution to the study of the relational dimension of justice. It focuses on the kind of treatment the citizens of a well-ordered society owe to one another in their public interactions and problematizes the appeal to reasonableness as the normative ground for establishing cooperative forms of interactions in society.

Keywords: John Rawls, Reasonableness, Interactive justice, Relational justice.
