The Polis-Psyché Paradigm

Abstract: The complementarity between personality and democracy, analyzed by Gian Vittorio Caprara and Michele Vecchione (*Personalizing Politics and Realizing Democracy*, 2017), has its roots in the classical philosophical thought, in particular in the mirror analogy between *polis* and *psyché*, the similarity in particular traced in Platon's *Republic*. With the crisis of Western model of society, psychology can lose its role of a normative science that analyzes the personality in terms of basic human values compliant with the concept of democracy.

Keywords: Democracy, Personality, Psychology.
