

L'etica, la scienza e la filosofia. Risposte ai commenti

SERGIO FILIPPO MAGNI

Ethics, Science and Philosophy. Replies to Comments

Abstract: The article deals with Magni's replies to his discussants on the topics of free will, moral responsibility, reproductive ethics and the relationships between ethics and natural sciences. The discussion gives the author the opportunity to clarify some of the views proposed in the book and to add further developments.

Keywords: Ethics, Naturalism, Free Will, Responsibility, Generation.
