

La tecnologia è una minaccia?

VERA TRIPODI

Is Technology a Threat?

Abstract: In this contribution, I critically analyse Piergiorgio Donatelli's *La filosofia e la vita etica* (Einaudi 2020). I present the main theses developed in the book regarding *intelligent digital technologies and robotics* by paying particular attention on the issue whether technology could be a threat to the humanist project.

Keywords: Intelligent digital technologies, Robotics, Women emancipation.
