*On Some Trends in Contemporary Constitutionalism. A Reply*

*Abstract:* Although Western constitutionalism arose, first and foremost, as a claim of rights against power, nowadays this claim has been taken to extremes, endangering the main achievements of this cultural movement. This contribution analyzes, critically, some of these trends, suggesting an alternative approach that emphasizes the importance of certain concepts (duties, unity, formal equality, political decision-making) that are underestimated in the current debate.

*Keywords:* Rights, Duties, Equality, Courts, Political decision-making.
