

Oltre le gerarchie. Discutendo il futuro del costituzionalismo sociale

TANIA GROPPI

Beyond Hierarchies. Questioning the Future of Social Constitutionalism

Abstract: The book deals with the legacy of social constitutionalism. It considers that it represents the most serious attempt to fight the principle of hierarchy which is still structuring human societies and human thinking (especially by the way of vertical metaphors). It succeeded in getting more equal societies, especially in Western countries, but it lost its force in the last thirty years. The book considers that all of us, but especially constitutional lawyers, must react, claiming the enforcement of the constitutions.

Keywords: Social constitutionalism, Equality, Hierarchy, Political metaphors.
