*On the Migration Issue: a Commentary*

*Abstract:* The paper discusses the theses put forward by Enrica Rigo on the two horns of the migration issue: freedom of movement and the right to seek and enjoy international protection. The depth of the gaze cast on the legal regime of asylum and the integrated view of international migration proposed in the book open important research perspectives but, on the other hand, do not clearly explicate its underlying ideological assumptions.

*Keywords:* Right of asylum, International migrations, Freedom of movement, Refugees, Asylum policy.
