*Sex and Gender Medicine: a Feminist Approach? Self-determination and the Right to Health from a Gender Perspective*

*Abstract:* This article is a discussion of Francesca Rescigno's book *Per un habeas corpus "di genere"* (2022). It addresses Rescigno's perspective on the principle of selfdetermination, by suggesting further problematization and a closer look at the feminist debate towards it. Moreover, it argues in favour of a feminist approach to sex and gender medicine.

*Keywords:* Sex and gender medicine, Feminism, Women' bodies, Health, Selfdetermination.
