Moral Progress and Evolution: a Critical Notice

Abstract: In the last couple of years, two important books concerning moral progress arrived in the press, namely Philp Kitcher's *Moral Progress* and Victor Kumar's and Richmond Campbell's *A Better Ape*. In this essay, I review both books and problematize the way in which they respectively try to tie together moral progress and the theory of evolution.

Keywords: Moral Progress, Moral Realism, Pragmatism, Metaethics.
