

Negazionismo, valori e decisioni nella scienza

GUSTAVO CEVOLANI

Denial, Values, and Decisions in Science

Abstract: Reading *Il mondo su misura* by Luca Tambolo, I explore the role that epistemic and non-epistemic values play in decision-making both within and outside scientific research, highlighting some critical implications for how to define and discuss the concept of “science denialism”.

Keywords: Science denial, Epistemic values, Rational decisions, Value-free ideal.
