

Intentionality, Scope, and the Natural Duty of Justice: Further Reflections on Reform Intervention

LUCIA M. RAFANELLI

Abstract: Here, I respond to comments from Uğur Bulgan and Francesca Pasquali on my book, *Promoting Justice Across Borders: The Ethics of Reform Intervention*. I engage with their suggestions, criticisms, and proposed cases to clarify my positions on the importance of intentionality in the ethics of intervention, the scope of the category “reform intervention”, and what the natural duty of justice demands of us.

Keywords: Reform intervention, Natural duty of justice, Ethics of intervention, Global justice.
