Legal Reality between Creation and Representation

Abstract: The authors, in response to comments on the book *Hans Kelsen. Justice, Law, and Social Reality* (2024), focus on the relationship between legal propositions, legal norms, and the legislature's normative statements; on the specific normative nature of the creation of legal reality; and on the complementarity of the normative and causal perspectives for a full understanding of legal and social reality.

Keywords: Hans Kelsen, Social ontology, Rules of law, Norms, Norm representations, Legal reality, Justice.
